Sodexo enhances service offering to clients and consumers by acquisition of Dutch startup XXIImo

Paris, March 15, 2016 - We are pleased to announce that XXIImo in 's-Hertogenbosch (the Netherlands) will gradually be acquired by Sodexo Benefits and Rewards Services, an activity of the global services company Sodexo.

The acquisition allows Sodexo Benefits and Rewards to support its clients to further enhance the Quality of Life of their employees with an innovative mobility platform. It enhances the experience of commuting and business travel and opens the way to new types of employee benefits that will bring ease and efficiency to their day to day work. Also, the acquisition allows XXIImo a quick roll out in other countries, starting with Germany.

XXIImo is the company behind the XXIImo Mobility Cards which enables commuters and business travelers to travel and pay hassle-free with one single solution for journeys by car, taxi, train, tram, bus, car share, public bike share and plane and also to pay conveniently for car sharing, parking, hotels or a business lunch.

XXIImo has developed its own platform and merchant network that makes it possible to digitalize the whole expense process, from transaction, authorization and cost allocation to direct processing in the accounts. The acquisition by Sodexo Benefits and Rewards will allow XXIImo to continue investments in this platform, extend its commercial network and develop its product portfolio in order to deliver an even better experience, among others to the large group of Sodexo customers.

Philippe Symons, CEO of Sodexo Benefits and Rewards Services Belux, says: *“The acquisition of XXIImo enhances our already strong offering in the employee benefits and mobility solutions area further. Our solutions allow our clients and consumers to concentrate on their main missions rather than logistics. It will bring ease and efficiency to their day to day work and improve their work-life balance, key factors that improve the Quality of Life of employees in today’s competitive economy.”*

Patrick Bunnik, CEO of XXIImo, confirms: *“After our success in the Netherlands and Belgium where we rolled out in 2013, we planned a phased international rollout. We are convinced that this acquisition by Sodexo will enable us to accelerate the international rollout considerably. Being part of a global services organization brings added value to our new and existing customers, merchants and resellers.”*

Bunnik will remain CEO of XXIImo and will continue to work with Lex Broekhuizen (CFO) and a dedicated team from the HQ in 's-Hertogenbosch in the Netherlands.

About XXImo

XXImo, founded in 2011, offers a digital platform that enables its users to plan, administrate and pay for all forms of business travel. XXImo's mission is aimed at making mobility easy, for the traveler as well as the financial handling of the expenses. Besides fueling, charging, car and bike sharing, toll and parking the XXImo solution offers the possibility to travel by public transport, use the taxi service, and to make reservations for meeting centers, hotels and flights. All XXImo transactions are listed on one specified invoice that employers can use for their VAT statement. XXImo customers can set up online where and what the card can be used for, assign spending and regional limits per type of transaction. www.xximo.com
